# ANNUAL REPORT OF THE MEDICAL OFFICER OF HEALTH

FOR THE

## Urban Sanitary District of Crompton

LANCASHIRE.

For the Year ending December 31st, 1937.

---

To the Chairman and Members of the Crompton  
Urban District Council.

Gentlemen,

I have the honour to submit my Annual Report for  
the Year ending December 31st, 1937.

I wish to express my thanks both to Mr. Milne and the  
Sanitary Inspector (Mr. F. Taylor) for their assistance  
during the year.

I remain, Gentlemen,

Your obedient Servant,

K. D. MURCHISON,

M.O.H.

## GENERAL OBSERVATIONS.

### Housing.

During 1937 the houses completed have been as follows:—

By the Council (Housing Act, 1936)	...	...	12
By Private Enterprise	...	...	22
			<hr/>
			34

Including the above, the total number of houses erected since the survey of 1919 is:—

By the Council (Housing Act, 1919)	...	...	80
„ (Housing Act, 1924)	...	...	206
„ (Housing Act, 1936)	...	...	87
			<hr/>
			373
By Private Enterprise	...	...	227
			<hr/>
Total	...	600	

The work in connection with defective property under the Housing Act, 1936, is being carried out according to schedule as arranged.

101 additional houses were reinspected and condemned. Approval for the necessary action was granted by the Council.

The building of 98 houses is in progress, 12 of which were occupied by the end of the year.

### Overcrowding.

The object of the Act is to determine to what extent is overcrowding prevalent in the district, and places the onus on both the owner and occupier against future overcrowding.

The following shows the position of overcrowding at the end of 1937 :—

	Upon Survey 1936 and since	Became uncrowded 1936-7	Total overcrowded at end of 1937
Council Houses ...	21	12	9
Condemned Houses ...	7	2	5
General Overcrowding	117	46	69
	143	60	83

See page 18 for more particulars.

Relief for the existing overcrowding will be met by re-adjustments of families and by future building of houses if necessary.

## PUBLIC HEALTH STAFF.

1.—K. D. MURCHISON, D.S.O., M.B., Ch.B., D.P.H.,  
Medical Officer of Health (Part Time).

2.—FRANK TAYLOR, Cert. R.S.I., Sanitary Officer (Whole Time).

Contribution is made under Public Health Acts towards the Salary of the above.

## SUMMARY OF NURSING ARRANGEMENTS, HOSPITALS AND OTHER INSTITUTIONS AVAILABLE FOR THE DISTRICT.

---

### Professional Nursing in the Home.

(a) GENERAL. The Crompton Sick Nursing Association, which is supported by voluntary contributions, employ two nurses. These nurses visit non-infectious cases upon the written request of the medical man in attendance. For attendance at operations a fee is charged (usually £1 1s. 0d.)

Number of New Cases seen during the year 1937—38	157
„ Visits paid ... ..	4750
„ Deaths ... ..	32
„ Convalescents ... ..	85
„ Operations in Patients' Homes ... ..	5
„ Removals to Hospital ... ..	25

(b) INFECTIOUS CASES. The majority of Scarlet Fever and Diphtheria cases are sent to hospital at the expense of the Local Authority. If efficient isolation can be obtained in the home, the case is nursed there, either by the mother, relative or paid help. At the request of the doctor any infectious case is sent to Hospital, provided there is accommodation.

### Midwives.

Two Midwives have been appointed by the L.C.C. under the Midwives Act.

## LABORATORY WORK.

### Bacteriological Examinations.

1. By the Public Health Laboratory, Manchester.

				Positive	Negative	Total
Diphtheria	...	...	...	2	...	29
Milk, for Bacteriological						
Count, etc.				—	...	—
Milk (Bovine T.B.)			...	4	...	29
						Total ... 100

Diphtheria Anti-toxin (5,000 units) is kept at the Town Hall, and supplied gratuitously to medical men upon request.

## ACTS IN FORCE IN THE DISTRICT.

Infectious Diseases Prevention Act, 1890. Date when commenced 12th December, 1892.

Public Health Acts Amendment Act, 1890 (Parts 1, 2 and 3)  
Date when commenced 12th December, 1892.

Baths and Wash-house Act, 1897. Date when commenced 8th December, 1897.

Notification of Births Act, 1907. Date when commenced 9th January, 1909.

Public Health Acts Amendment Act, 1907, Sections 81, 84, 85, 86, 90 and 91, Parts II., III. (except clause 37), IV., V., VI., and Section 95 of Part X. Date when commenced 12th May, 1909.

The Urban District of Bredbury and Romiley, etc. (Measles and German Measles) Regulations, adopted 1920.

Public Health Act, 1925. The whole Act is in operation.

## HOSPITALS PROVIDED OR SUBSIDISED BY THE LOCAL AUTHORITY.

### Isolation Hospitals.

- 1.—Chadderton, Royton, and Crompton (Joint) Cinder Hill, Chadderton. For Smallpox only.
- 2.—Oldham Corporation Hospital, Westhulme, Oldham.
- 3.—Boundary Park Municipal Hospital, Oldham.

### Sanatoria and Tuberculosis Hospitals.

The various Sanatoria and Hospitals under the Lancashire County Council are available for the District but are not provided nor subsidised by the Local Authority.

### Hospitals.

- 1.—Oldham Royal Infirmary.
- 2.—Oldham Poor Law Hospital.
- 3.—Several Manchester Hospitals.

There is no institutional provision for unmarried mothers, illegitimate children, and homeless children, except the Oldham Poor Law Hospital.

The General Superintendent of the Oldham Royal Infirmary has kindly supplied me with the number of persons admitted to the Institution from this District during the year 1936:—

			1935		1936		1937
Men	...	...	67	...	76	...	61
Women	...	...	69	...	80	...	77
Children	...	...	39	...	43	...	46
			175			199	184

### Ambulance Facilities.

(a) INFECTIOUS CASES. Motor Ambulance from Westhulme Hospital, Oldham.

(b) OTHER CASES. Motor Ambulance at the Fire Station, Oldham.

### Clinics and Treatment Centres.

There is a Maternity and Child Welfare Clinic (consultation) open every Tuesday, from 2-0 p.m. to 4-0 p.m., at the East Crompton Church Institute, St. James' Street, Shaw. A Clinic and Treatment Centre is also held there.

## **SANITARY CIRCUMSTANCES OF THE AREA. WATER.**

The water supply of this District is very good, and is derived from the Oldham Corporation Reservoirs.

A few farms and houses in the outlying districts are supplied from wells and springs.

## **RIVERS AND STREAMS.**

There is no serious pollution of these from trade effluents. As a result of extensive sewerage and draining of house property during the past few years, very little pollution takes place from this source.

## **SCHOOLS.**

The Sanitary condition and water supply of Schools is quite satisfactory.

## **CLOSET ACCOMMODATION.**

Except in remote parts of the District, the whole of the pail closets in Crompton have been converted to the fresh water closet type.

The closet accommodation is therefore highly satisfactory.

## **SCAVENGING.**

All household refuse is collected once weekly by two motors owned by the Council and is disposed of by incineration at the Destructor.

168 barrels of nightsoil were tipped into the sewer at Jubilee.

## **REFUSE DESTROYER.**

The plant comprises three cells made by Dawson & Mansfield.

3,994 loads of household refuse were received and burned.

A bailing press for reducing the bulk of tins, scrap iron, etc., is in use.

## **DISINFESTATION AND DISINFECTION.**

The furniture of 16 housing tenants was subjected to treatment before entry into the new Council Houses. This was effected by spraying with insecticide before leaving the house, and then to fumigation whilst in the removal van at the Town Hall Yard.

2 houses were treated for vermin at the request of the owner or occupier; a charge being made in each case.

37 houses were disinfected after Infectious Disease. All bedding and infected articles were subjected to steam at the Disinfecting Station or immersed in liquid disinfectant.

## STATEMENT AS TO HOUSES IN THE DISTRICT AND THEIR SANITARY CONDITION.

	1937
No. of Houses ... ..	4135
„ Factories, Workshops, Lock-up Shops, etc....	234
„ Houses without back-door ... ..	214
„ Houses back-to-back ... ..	82
„ Pail Closets ... ..	126

## PREMISES AND OCCUPATIONS WHICH ARE CONTROLLED BY BYE-LAWS OR REGULATIONS. COMMON LODGING HOUSES, ETC.

There are 3 houses of this type, 2 are used as Weekly Lodgings, 1 as a Common Lodging House.

They have been frequently inspected and found to be in a fairly clean condition.

---

### SLAUGHTER HOUSES.

There are now 8 private slaughter houses in the District.

Slaughterhouses are licensed annually. The premises are visited at irregular intervals, if possible when slaughtering is taking place.

All slaughterhouses, lairs and pens were kept in a satisfactory condition during the year.

---

### FACTORIES AND WORKSHOPS.

#### Factories.

There are 72 premises which come under this designation, viz:—

Bakers	...	...	...	...	...	...	14
Boot, Shoe and Clog Repairers...	...	...	...	...	...	...	8
Brickworks	...	...	...	...	...	...	1
Stockinette Maker...	...	...	...	...	...	...	1
Cotton Spinning (Working)	...	...	...	...	...	...	23
Flock Willowing	...	...	...	...	...	...	1
Ironfounders	...	...	...	...	...	...	1
Joiners and Builders	...	...	...	...	...	...	5
Laundries	...	...	...	...	...	...	2
Machinists	...	...	...	...	...	...	2
Motor Repair Garages	...	...	...	...	...	...	3
Printers	...	...	...	...	...	...	2
Pork Butchery and Grocers Plant	...	...	...	...	...	...	2
Rope Walks	...	...	...	...	...	...	2
Sand Mill	...	...	...	...	...	...	1
Tinplate Workers	...	...	...	...	...	...	1
Wheelwrights and Shoeing Forge	...	...	...	...	...	...	2
Welder (Acetylene)	...	...	...	...	...	...	1

During the year 49 Inspections were made.

### Workshops.

There are 20 premises coming under this designation, viz:—

Bakehouses ... ..	12
Cloggers and Shoemakers ... ..	1
Saddlers ... ..	1
Skipmakers ... ..	2
Tailoring—Ladies' and Gent's ... ..	2
Tinplate Workers ... ..	1
Botanical Brewer ... ..	1

During the year 40 Inspections were made.

### HOUSING.

#### Number of New Houses Erected during the Year.

(a) Total (including numbers given separately under (b) ... ..	34
(i) By the Local Authority ... ..	12
(ii) By other Local Authorities ... ..	—
(iii) By other Bodies and Persons ... ..	22
(b) With State Assistance under the Housing Acts	
(i) By the Local Authority ... ..	12
(ii) By other Bodies or Persons ... ..	—

#### I.—Inspection of Dwelling-Houses during the Year.

1. (a) Total number of dwelling-houses inspected for housing defects (under the Public Health or Housing Acts) ... ..	43
(b) Number of Inspections made for the purpose	105
2. (a) Number of dwelling-houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 ... ..	23
(b) Number of Inspections made for the purpose	54
3. Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation ... ..	23
4. Number of dwelling-houses (exclusive of those referred to under the preceding sub-heading) found not to be in all respects reasonably fit for human habitation ... ..	20

## II.—Remedy of Defects without Service of Formal Notices.

Number of Defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or their officers ... ..	15
--	----

## III.—Action under Statutory Powers.

\*Out District Supply. Action is taken to improve the milk where necessary.

Milk containing extraneous matter, etc., over 6 parts per 100,000 is treated as unclean milk.

All Farmers are supplied with a copy of the Examination Certificate with suggestions typed at the foot.

Four samples showed the presence of Tubercle Bacilli. The cows affected were traced, three cows being destroyed.

## MEAT AND OTHER FOODS INSPECTION.

During the year visits were paid to the Market Ground, Slaughterhouses, Meat Shops, Bakehouses and places where food is prepared for sale.

The following table shows the amount of food destroyed:

Total amount surrendered:

					lbs.
(a)	Tuberculosis, 3 carcasses	...	...	...	1480
	„ 2 parts	...	...	...	74
(b)	Discased, unsound, etc., other than (a)—				
	1 part	...	...	...	9
(c)	Other Food Stuffs	...	...	...	—
					—
	Total	...			1563

There were no prosecutions.

---

## BAKEHOUSES.

There were 27 Bakehouses on the Register. During the year 59 inspections were made, and the premises found to be in a clean and satisfactory condition.

### SALE OF FOOD AND DRUGS ACT.

This Act is administered by the County Police Authorities who have courteously given me the following particulars for 1937 :—

NO. OF SAMPLES PURCHASED	ARTICLES PURCHASED	ANALYST'S REPORT	ACTION TAKEN (IF ANY)
30	Milk	Genuine	None
1	Minced Meat	"	"
1	Gravy Browning	"	"

	9		10		8		—	

Non-notified Tuberculosis Deaths, nil.

The notification of Tuberculosis in this District is very satisfactory.

## REPORT OF THE TUBERCULOSIS OFFICER FOR THE YEAR 1937.

During the year 1937, 20 notifications of patients suffering from tuberculosis were received. Of these, 9 were notified as suffering from tuberculosis of the lungs, 10 from non-pulmonary tuberculosis, and one combined case.

Of the 9 pulmonary cases, 8 were found to have tubercle bacilli in the sputum, and in one case the sputum was not examined.

Of the combined case the sputum was not examined.

The 10 non-pulmonary cases are classified as follows:—

Glands, 6; Abdomen, 1; Abscesses, 3.

3 of the notified cases died during the year (2 pulmonary, one combined).

18 of the cases applied for treatment. In the remaining 2 cases no application was made for the following reasons:—

Died immediately after notification, 2.

Of the patients who applied for treatment 5 were sent to Sanatoria, 1 to Pulmonary Hospital, and 3 to General Hospital. The remaining 9 cases were under dispensary supervision only.

In addition to the notified cases, a number of patients are sent to the Dispensary for diagnosis. During the year, 42 new cases were sent for diagnosis by the doctors, School Medical Officers, etc.

The number of re-attendances of old patients at the Dispensary for supervision and arrangements for treatment was 205.

Special enquiries are made as to the health of other inmates of the house where there are patients suffering from definite tuberculosis, and 13 of these contacts were examined during the year.

In supervision and visiting, special attention is paid to open cases, i.e., cases where tubercle bacilli are present or have been found in the sputum. On the 1st January, 1937, there were 28 such cases known to be living in the district. On the 31st December, 1937, there were 27 positive cases living. These figures include quiescent and arrested cases.

4 of the positive cases died during the year.

2 positive cases removed from the district during the year.

The condition as to isolation of the positive cases was as follows:—

Separate Room	...	...	...	...	...	20
Separate Bed	...	...	...	...	...	11
Unable to have Separate Bed	...	...	...	...	...	3

16 of the positive cases were in Institution for treatment and isolation at some time during the year.

The number of positive cases living at 31st December, 1937, who had tubercle bacilli in the sputum during 1937 was 15. The other 12 had either negative or no sputum.

Of the 15 cases who had tubercle bacilli in the sputum during 1937, 8 had separate room, 2 had separate bed, 1 was unable to have separate bed, and 4 were in Institution at the end of the year.

38 specimens of sputum were examined at the Ashton Laboratory during the year. Of these, 8 were positive, and 30 were negative.

During the year 1937, 16 cases were discharged from Institutions as follows:—

Sanatoria	...	...	...	...	...	4
Pulmonary Hospital	...	...	...	...	...	6
General Hospital	...	...	...	...	...	4
Orthopædic Hospital	...	...	...	...	...	2
Non-pulmonary Sanatoria	...	...	...	...	...	—
Skin Hospital	...	...	...	...	...	—

The results on discharge were as follows:—

Quiescent or arrested	...	...	...	...	...	1
Improved	...	...	...	...	...	10
I.S.Q.	...	...	...	...	...	2
Worse	...	...	...	...	...	1
Died	...	...	...	...	...	2
Diagnosis not confirmed	...	...	...	...	...	—

During the year there were no deaths from tuberculosis where the cases had not been notified previously.

G. FLETCHER,

Consultant Tuberculosis Officer.

## INFANT WELFARE.
